

Is medical assistance available if I have problems? | 1

**There is a fully equipped mini hospital** in Pisac with a doctor on call 24 hours a day. There are several drug stores in the town of Pisac that have medications. If you have a problem that cannot be attended to in Pisac, they will transfer you to Cusco where there are many recommended medical services with specialists on call. Pisac Inn is affiliated with a top clinic in Cusco, and they will send medical professionals for a reasonable fee.
