

What are the accommodations like? | 1

**Pisac Inn** is small and charming, offering comfortable accommodations with 11 guest rooms all with private baths. Pisac Inn's atmosphere and décor celebrates the local Andean culture, and affords romantic old world flair with beautiful common areas. It can best be compared to a small bed and breakfast or a three star boutique hotel, rather than international chain hotels. It is ideally located on the historic plaza.

**The Cusco area** offers a wide selection of hotels, ranging from budget hostels, to mid range to five star luxury hotels. We are happy to make recommendations to help you select the right type of accommodation for your stay, from a selection of mid range hotels similar to Pisac Inn, or other categories.
